EXPERIENCE

Tech Lead - Backend Developer

Mar. 2021 - Aug. 2023

Seascope Network | Remote, Singapore

- Spearheaded the successful launch and continuous maintenance of an NFT marketplace and an IDO platform, catering to a thriving user base of over 20k active users.
- Designed and developed robust blockchain-centered architecture that accommodated a substantial user base of over 50k active users, enhancing scalability and performance.
- Assumed leadership responsibilities, guiding and supervising the team during critical phases of the project, ensuring effective collaboration and timely deliverables.

Founding Engineer - Swift Developer

May. 2020 - June. 2021

Skopos AI | Remote, Netherlands

- Led the development of iOS and macOS applications utilizing Swift, empowering hundreds of users to bolster their online security.
- Implemented RSA encryption algorithms to securely transfer user data, resulting in improved user retention metrics.
- Designed and maintained an efficient codebase, significantly reducing development time and costs.

PHP Developer

Feb. 2020 - Nov. 2020

Fonesoft | Remote, USA

- Implemented optimal Jira Servicedesk and SuiteCRM solutions, leading to heightened customer satisfaction and improved Net Promoter Score (NPS).
- Successfully proposed and developed the company's QuickBooks plugin, enhancing the efficiency of financial processes.
- Took the lead in delivering optional SuiteCRM extensions, collaborating effectively with the team to expand the platform's functionality and user experience.

Flutter Developer

Mar. 2019 - Feb. 2020

Visitu | Remote, USA

- Developed and deployed the company's iOS and Android applications using Flutter.
- Integrated platform-specific APIs to meet the requirements of iOS and Android native BLE plugins, ensuring seamless communication with external devices.
- Designed a custom BLE module tailored to the company's needs, enabling the core functionality of the application.

Full Stack Developer

May. 2018 - Jan. 2019

Tactica Interactive | Winnipeg, Canada

- Led development of educational mobile apps for sick children and research institutions.
- Actively engaged in customer meetings to gather feedback, address concerns, and enhance product success and satisfaction.
- Showcased dedication and adaptability by learning Ruby on Rails in just two weeks, optimizing the backend code and achieving project milestones on schedule.
